BUSINESS HISTORY

Avion Technology, Inc, a certified minority business, is Chicagoland's premier software development agency. Based out of Arlington Heights and Chicago IL, Avion Technology has successfully completed over 750 projects since our inception in 2007. Avion Technology's vision is to provide customer-centric solutions that add true value by enhancing our customer's profitability and empowering them to fulfill specific growth targets.

Avion works across multiple domains and vertices, which diversifies the value we add for our client's IT development initiatives. Our project communication protocols are efficient, as we adhere to strict deadlines and coding standards. Our clients can rest assured that the development process is handled properly. Ultimately, we enable clients to achieve their business goals on time and on budget. A number of our clients have gone one to become successful VC funded ventures while others have had their products showcased at CES, Las Vegas.

UNIQUE CAPABILITIES

Superior one-stop web and apps design and development services.

Excellent quality standards and efficient cost.

Attention to detail.

Cross-technology and cross-domain experience.
